

Children inspire our decisions, direction,
and everything we do.

Summary

Our Inspire Arts programme introduces children to dance, art, music and creative expression through fun, hands-on experiences each week. Children explore movement, sound, colour and imagination while building confidence, coordination and communication skills. Sessions encourage curiosity, self-expression and enjoyment, helping every child develop creativity naturally as part of their everyday learning.

What's Included

Each week, children take part in planned creative sessions including art, music, dance and imaginative activities. Experiences vary across the programme to give children opportunities to explore different materials, movements and sounds, helping them develop confidence, coordination, creativity and self-expression through enjoyable, hands-on learning.

Creative Learning

Through the programme, children explore music, art and dance from different cultures around the world, helping them develop an understanding of diversity and respect for others. They learn new skills, build confidence in expressing themselves, and discover how creativity can be used to communicate ideas, feelings and experiences in many different ways.
